- i. Upcoming Public Safety Meeting - RYLAN Reimagined on October 28th at 6pm

The ReadyYour Los Angeles Neighborhood is an emergency preparation program focused on neighbors helping each other during and after disasters. Knowing and checking on the well being of our neighbors is even more important during the current pandemic. The Los Angeles Emergency Management Department has developed a procedure to facilitate the program through online meetings. Jackie Tamayo of the EMD will provide training on how to create a RYLAN block during the pandemic.

The meeting is scheduled for October 28th at 6 pm.

Co-Chair will be Area 8 Chair Serra Aladag.

- ii. Vehicle Exhaust Noise Letter to Council Members

Support the NoHo Neighborhood Council in their motion to request an increase in fines associated with excessive vehicle exhaust noise (see attachments: Vehicle Sound Letter and Encino).

Excessive vehicle exhaust noise has increased since 2017, with many exhausts sounding like rapid fire from automatic weapons. LADP has received calls from Stakeholders believing the sounds are gunshots when the noise emanates from vehicles. Late-night street racing, burnouts, and donuts have increased throughout the entire HHWNC area and have adverse effects on the mental health, quiet enjoyment and rest of all of our stakeholders in the proximity to major streets. These streets include Mulholland Drive, Hollywood Blvd., Sunset Blvd., La Brea, Cahuenga, and Highland, among many others.

HHWNC strongly supports the need to end this unnecessary, very disruptive sound pollution.

Motion: The Hollywood Hills West Neighborhood Council requests that Councilmembers Ryu and O'Farrell request that the City Attorney and other City Departments investigate increasing fines for excessive noise from vehicle exhausts and formally introduce a motion so City Council may vote to implement the increase in fines, including a tier of increased fines for repeat offenders.

President Anastasia Mann made the motion, Area 4 Chair Naomi Kobrin 2nd.

The board discussed and the motion was tabled.

9. **Public Comments** – Comments from the public on agenda items and non-agenda items within the Board’s subject matter jurisdiction. Public comments are limited to 2 minutes per speaker.

-Mister Konik spoke about his concern for vehicle exhaust and cars idling in his area.

10. **Adjournment at 8:58pm.**

RE: Excessive vehicle exhaust noise

Dear Councilmember Koretz,

At the Encino Neighborhood Council's August 26th 2020 General Board meeting, under quorum, the following motion was discussed and voted on.

Description:

In August of 2017, the ENC supported the NoHo Neighborhood Council in their motion to request an increase in fines associated with excessive vehicle exhaust noise. Since receiving our letter of support no action has been taken by City Council to increase these fines. Excessive vehicle exhaust noise has increased since 2017 with many exhausts sounding like rapid fire from automatic weapons. LADP has received calls from Stakeholders believing the sounds are gunshots when the noise emanates from vehicles. Late night street racing has also increased throughout the entire City, including the Valley with evidence of burnouts on Ventura Blvd. in Encino.

After discussion and comments the ENC voted on the following motion:

MOTION; EXE-20-08-0124: The Encino Neighborhood Council requests that Councilmember Koretz request that the City Attorney and other City Departments investigate increasing fines for excessive noise from vehicle exhausts and formally introduce a motion so City Council may vote to implement the increase in fines, including a tier of increased fines for repeat offenders.

The motion passed unanimously: 16 (Y), 0 (N), 0 (A)

Respectfully submitted,

Alex Garay

Re: Vehicle Exhaust Noise in NoHo, throughout the City of Los Angeles, and the State of California.
THIS ISSUE IS IMPORTANT AND CAN NO LONGER BE IGNORED!

The NoHo Neighborhood Council voted in favor to support this letter requesting that the City of Los Angeles take action on Vehicle Sound Enhancements. Since our original letter in 2017 on this issue, little to none has been discussed by our leaders to curb the loud noise in our community from the sound of enhanced exhaust systems from vehicles. Some vehicle exhaust systems are even manipulated to copy the sound of rapid gunfire, which causes wasted LAPD time and money when mistaken for actual gunfire. This issue is no longer tolerable to many of our stakeholders. There **MUST** be decisive action on this issue.

In an April 22, 2020, Los Angeles Times article, it was reported that since the year 2000, over 179 people were killed in street racing incidents in Los Angeles County. As stated in our letter in 2017, these despicable sounds often "act as a mating call for street racing."

As a city, we are very careful to regulate the sounds coming from airplanes above, yet ignore the horrifying and dreadful sounds manipulated on the ground for the sole purpose of attracting and diverting attention. This diverted attention is disturbing the peace at unprecedented levels never before imagined.

State and city governments have the power to regulate this. We ask that our city not only begin regulating Vehicle Exhaust Sound Enhancements, but also suggest that our city leaders request assistance from our state representatives to aggressively bring this excessive street noise to an end.

In addition, these sounds from our streets and side streets can have a negative psychological impact on the following:

- Those suffering from PTSD
- Children
- Seniors
- Pets

The NoHo Neighborhood Council also kindly requests the support of ALL neighborhood councils in the City of Los Angeles to send this issue to their public safety committee chair to write a letter urging their councilmember to immediately act on this dire issue.

Sincerely,
Paul Storiato
President
