- k) LADOT – Brian Gallagher stated that the street restriction and tour bus studies will start after Thanksgiving. Mulholland will be at the top of the list and then they will proceed with other locations. The study requires that some criteria must be met on the total number of buses, so they will count each location twice. Brian talked about how there is a two-phase approach to make Pyramid Place a one way street. At Hollywood Bowl & Oden they’ve approved a left hand turn lane from Highland. Brian will be turning in an idling report to the City Council soon. Commercial vehicles or buses cannot idle for more than 5 min. without being eligible for a ticket, but enforcement will be an issue, so no signage will be put up in locations unless LAPD is willing to enforce.

m) LAPD – Hollywood & North Hollywood Divisions

LAPD Hollywood Captain Steve Lurie stated that:

- Hollywood crime wise overall is down 13% , but there has been a 60% increase in violent crimes involving shootings. The victim population is usually out of town guests/visitors. Many gang members are coming from out of state.
- Captain Lurie feels fortunate that not many police officers have gotten COVID.
- Regarding mask enforcement, they are waiting for order from the mayor. They have been in the business of educating and providing mask instead of enforcement
- There will be a reorganization happening in the next 2-3 weeks, you'll see "new LAPD articles" regarding the \$150million budget cut meaning that 475 police officers will be cut. LA has one of the smaller police forces for large cities with approximately 9,300 officers (compared to NY-40k and Chicago 20k). This means that they will have to stop the HOPE program (homeless outreach) and he estimates that about 20 police officers will be lost from the Hollywood entertainment district. Resources will be focused on the vital organs (911 calls/emergencies to be prompt and professional).

Officer Kurtis Delbar, North Hollywood stated that car break ins continue to be an issue as many people are leaving their keys in their cars outside of their homes or convenience stores.

Neighborhood council area chairs can utilize their social media presence to improve the transmission of information from the neighborhood council's outreach chair to their area stakeholders in times of urgency and need for example: NC elections, advisory etc.

This social presence network will also allow for better representation of Area stakeholders and overall better communication of important information from the NC to the public.

RE: Excessive vehicle exhaust noise

Dear Councilmember Koretz,

At the Encino Neighborhood Council's August 26th 2020 General Board meeting, under quorum, the following motion was discussed and voted on.

Description:

In August of 2017, the ENC supported the NoHo Neighborhood Council in their motion to request an increase in fines associated with excessive vehicle exhaust noise. Since receiving our letter of support no action has been taken by City Council to increase these fines. Excessive vehicle exhaust noise has increased since 2017 with many exhausts sounding like rapid fire from automatic weapons. LADP has received calls from Stakeholders believing the sounds are gunshots when the noise emanates from vehicles. Late night street racing has also increased throughout the entire City, including the Valley with evidence of burnouts on Ventura Blvd. in Encino.

After discussion and comments the ENC voted on the following motion:

MOTION; EXE-20-08-0124: The Encino Neighborhood Council requests that Councilmember Koretz request that the City Attorney and other City Departments investigate increasing fines for excessive noise from vehicle exhausts and formally introduce a motion so City Council may vote to implement the increase in fines, including a tier of increased fines for repeat offenders.

The motion passed unanimously: 16 (Y), 0 (N), 0 (A)

Respectfully submitted,

Alex Garay

Los Angeles City Council
Los Angeles Neighborhood Councils
NoHo Area Stakeholders

Re: Vehicle Exhaust Noise in NoHo, throughout the City of Los Angeles, and the State of California.

THIS ISSUE IS IMPORTANT AND CAN NO LONGER BE IGNORED!

The NoHo Neighborhood Council voted in favor to support this letter requesting that the City of Los Angeles take action on Vehicle Sound Enhancements.

Since our original letter in 2017 on this issue, little to none has been discussed by our leaders to curb the loud noise in our community from the sound of enhanced exhaust systems from vehicles. Some vehicle exhaust systems are even manipulated to copy the sound of rapid gunfire, which causes wasted LAPD time and money when mistaken for actual gunfire.

This issue is no longer tolerable to many of our stakeholders. There **MUST** be decisive action on this issue.

In an April 22, 2020, Los Angeles Times article, it was reported that since the year 2000, over 179 people were killed in street racing incidents in Los Angeles County. As stated in our letter in 2017, these despicable sounds often "act as a mating call for street racing."

As a city, we are very careful to regulate the sounds coming from airplanes above, yet ignore the horrifying and dreadful sounds manipulated on the ground for the sole purpose of attracting and diverting attention. This diverted attention is disturbing the peace at unprecedented levels never before imagined.

State and city governments have the power to regulate this. We ask that our city not only begin regulating Vehicle Exhaust Sound Enhancements, but also suggest that our city leaders request assistance from our state representatives to aggressively bring this excessive street noise to an end.

In addition, these sounds from our streets and side streets can have a negative psychological impact on the following:

- Those suffering from PTSD
- Children
- Seniors
- Pets

The NoHo Neighborhood Council also kindly requests the support of ALL neighborhood councils in the City of Los Angeles to send this issue to their public safety committee chair to write a letter urging their councilmember to immediately act on this dire issue.

Sincerely,
Paul Storiato
President
