3 Working together as a community

- A community should have clearly defined boundary and a local risk assessment in consultation with the local fire district or state fire agency; an identified evacuation route, cleared of vegetative overgrowth, and evacuation plan contingencies; clear funding sources to implement community mitigation activities and meet clear risk reduction goals; and integrated and up-to-date local planning documents pertinent to community wildfire risk.
- Current examples include the Fire Risk Reduction Community designation under development by the Board of Forestry, Firewise USA communities in good standing, and Shelter-in-Place designations.

Regulations to lower costs and increase transparency

- Require insurance companies to **factor consumers' and businesses' wildfire safety actions into their pricing**
- Provide consumers with **transparency about their “wildfire risk score”** that insurance companies assign to properties
- Give consumers the **right to appeal** their risk determination
- Public hearing was April 13 — regulations expected to be in effect by mid-2023

It Is Working!

- The number of homeowners non-renewed by insurance companies fell by 10 percent statewide in 2020 compared to the previous year — a decrease of 22,870 policies.
- **Premium discounts now available to 2 out of every 5 consumers**, with up to 20 percent discounts for wildfire-hardened homes – 6x increase since 2019
