Hello Brian:

The Mountains Recreation and Conservation Authority (MRCA) owns the Briar Summit Open Space Preserve (acquired in 2002). The MRCA has not sold nor transferred any portion of that property to any public or private entity. The property is to remain as protected open space in perpetuity. The assessor parcel numbers for the Preserve are listed below and on the attached map. Please let me know if you have any further questions.

Subject: Briar Summitt

This is a follow-up email to a phone call this morning. Briar Summit in the Hollywood Hills is listed on the Draft of the Hollywood Community Plan Update 2 as belonging to the City. Some of my stakeholders have pointed out that the City is slating this open land for development. (below is a link to our website of City documents as well as our responses) This Draft maybe incorrect. Will someone from the Santa Monica Mountains Conservancy verify ownership of Briar Summit? If it has been deeded to the City, may I obtain a copy of that record?
